

RAGHUVANSH AGROFARMS LIMITED

ANNUAL REPORT 2014-15

LETTER TO THE SHAREHOLDERS

Dear Shareholders,

With great pleasure we share with you the performance of your Company and present the Annual Report for the financial year 2014-15.

As it is a known fact that India is an agricultural country and agriculture is a traditional business which is being advanced with the use of scientific techniques, tools, equipments and machineries. The agriculture produce is consumed in native places as well as exported to other countries. The agriculture and allied sectors contributed approximately 13.9% of India's GDP (at constant 2004-05 prices) during 2014-15.

During the financial year your company has come up with Initial Public Offer and got listed on SME Platform of BSE Limited with effect from January 28th 2015 with the object of its expansion and growth.

There is always demand of agricultural products, dairy products and organic manures. Apart from that there is always incremental demand of power. So Company's existing business is assured to be on demand whether there are agricultural products, dairy products, organic manure or power generation through biogas power plant. Company is consistently stepping up for its expansion in its respective business sectors as determined.

Your Company is progressively getting ahead in establishing Radiation plant and power generation through bio organic waste having immense opportunities for commercial growth and development. In addition to this Your Company also plans to generate power through waste management which would be favorable to company as well as nation as it would provide the alternate source of energy and simultaneously decrease the pollution from the environment.

We would like to assure that we will continuously seek the opportunities and make our best efforts to contribute towards the growth and success of the organization.

With these words I would like to express my gratitude to the shareholders, customers, regulatory bodies, bankers, contractors and employees for the continued support have been extended to your Company.

With warm regards,
Yours sincerely,

Subodh Agarwal
(Managing Director)

MANAGEMENT DISCUSSION & ANALYSIS REPORT

INTRODUCTION

Since its inception, the Company is engaged in agriculture operations. The Company is broadly engaged in cultivation of Organic Vegetables, Organic Grains and Cereals. We have an integrated facility for cultivation, processing and distribution of agricultural produce. Apart from the above, the Company is also engaged in dairy farming, production, distribution of dairy products and manufacturing of organic manure.

INDUSTRY STRUCTURE AND DEVELOPMENT

As per the land use statistics 2010-11, the total geographical area of the country is 328.7 million hectares, of which 141.6 million hectares is the net sown area. The gross cropped area is 198.9 million hectares with a cropping intensity of 140.5%. The net irrigated area is 63.6 million hectares.

The agriculture and allied sectors contributed approximately 13.9% of India's GDP (at constant 2004-05 prices) during 2014-15.

In India, agriculture is a traditional business which is being advanced with the use of scientific techniques, tools, equipments and machineries. The agriculture produce consumed in native place as well as exported to other countries.

Biomass has always been an important energy source for the country considering the benefits it offers. It is renewable, widely available, carbon-neutral and has the potential to provide significant employment in the rural areas. Biomass is also capable of providing firm energy. About 32% of the total primary energy use in the country is still derived from biomass and more than 70% of the country's population depends upon it for its energy needs.

The current availability of biomass in India is estimated at about 500 million metric tons per year. Studies sponsored by the Ministry have estimated surplus biomass availability at about 120 – 150 million metric tons per annum covering agricultural and forestry residues corresponding to a potential of about 18,000 MW. This apart, about 5000 MW additional power could be generated through bagasse based cogeneration in the country's 550 Sugar mills, if these sugar mills were to adopt technically and economically optimal levels of cogeneration for extracting power from the bagasse produced by them.

OPPORTUNITIES AND THREATS

There is always demand of agricultural products, dairy products and organic manures. Apart from that there is always incremental demand of power. So Company's existing business is assured to be on demand whether there are agricultural, dairy products, organic manure or power generated through biogas power plant. Company is getting ahead for its expansion in its respective business sector as determined by its board.

The Company is also in process to set up a 3 Mci commercial radiation processing facility for approved low and medium dose items such wheat, atta, Soya bean and spices such as Coriander, Chilies etc.

Though company is operating in profit making sectors still its growth dependent on climate, government policies, availability of labors, and other factors.

SEGMENTWISE PERFORMANCE

Company's business activity primarily falls within a single business and geographical segment, during the year under review agro and related products worth Rs. 1,79,25,287/- were sold.

OUTLOOK

The Company expects that the situation will ameliorate due to favorable changes in climatic condition and government policies. The market of agricultural and dairy product is expected to grow and would be on demand.

Company is making constant efforts to improve operational efficiency to increase the earnings and making value addition in their operational activities.

RISKS & CONCERNS THE MANAGEMENT PERCEIVE

Unfavorable climactic condition and uncertainty in economic growth which are not favorable presently in agricultural related activity is expected to impact the growth rate in India and consequently the Company's operations.

The growth in the industrial sector depends on government policies, better infrastructure, favorable climate, availability of labor, open market and growth in agricultural sector.

INTERNAL CONTROL SYSTEM & THEIR ADEQUACY

Internal Control Systems are implemented:-

- To safeguard the Company's assets from loss or damage.
- To keep constant check on cost structure.
- To provide adequate financial and accounting controls and implement accounting standards.

The system is improved and modified continuously to meet with changes in business condition, statutory and accounting requirements. Internal controls are adequately supported by Internal Audit and periodic review by the management.

The Audit Committee meets periodically to review –

- Financial statements, with the management and statutory auditors;
- Adequacy/scope of internal audit function, significant findings and follow up thereon of any abnormal nature, with the internal auditors.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL EFFICIENCY

The details of the financial performance of the Company appear in the Balance Sheet, Statement of Profit and Loss and other financial statements appearing separately. Please refer the Directors' Report for highlights.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES, INDUSTRIAL RELATIONS

The human resources received consistent attention during the year considering the growth of the organization and the need arising there from. The relation at all levels was cordial throughout the year and the Company has initiated many programs on enhancing the skills of its men power.

As an ongoing exercise, the Company has continued to look at, identify, create and execute seamlessly, initiatives which enhance productivity and efficiency.

The Company continues to invest in people, required machines and equipments which enable the work force to meet the production requirements and challenges related thereto and to infuse positive enthusiasm towards the organization.

There are 08 employees on roll in an organization as on 31st March, 2015

CAUTION

This report is based on the experience and information available to the Company in the agricultural, dairy business, manufacturing of manures and assumption in regard to domestic and global economic conditions, government and regulation policies etc.

The performance of the Company is dependent on these factors. It may be materially influenced by the changes therein beyond the Company's control, affecting the views expressed in or perceived from this report.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF **RAGHUVANSH AGROFARMS LIMITED**

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **RAGHUVANSH AGROFARMS LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2015, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information,

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2015, and its profit/loss and its cash flows for the year ended on that date.

Emphasis of Matters

We draw attention to the following matters in the Notes to the financial statements:

- i) Para No. 5 pertaining to Related Party Disclosure. And
- ii) Para No. 7 pertaining to Disclosure in Two Subsidiary Companies.

Our opinion is not modified in respect of these matters.

Other Matter NIL

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

As required by Section 143 (3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account [and with the returns received from the branches not visited by us].

(e) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. .

(f) On the basis of the written representations received from the directors as on 31st March, 2015 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2015 from being appointed as a director in terms of Section 164 (2) of the Act.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company does not have any pending litigations which would impact its financial position.

RAGHUVANSH AGROFARMS LIMITED

ACCOUNTING POLICIES AND NOTES TO ACCOUNTS

Corporate Information

Raghuvansh Agrofarms Limited is a Limited Company in India and incorporated under the provisions of the Companies Act, 1956. It came into existence on 19.12.1996. The company is primarily engaged in manufacturing and trading of agro products.

SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Preparation

The Financial Statements of the Company have been prepared in accordance with generally accepted accounting principles in India (Indian GAAP). The Company has prepared these Financial Statements to comply in all material aspects, with the Accounting Standards notified under the Companies relevant provisions of the Companies Act, 2013. The Financial Statements have been prepared on an accrual basis and under the historical cost convention.

The accounting policies adopted in the preparation of financial statements are consistent with those of previous year except for the change in accounting policy, if any.

2. Uses of Estimates

The preparation of the Financial Statements in conformity with Indian GAAP requires Management to make Judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods.

3. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured.

Income is accounted for on accrual basis in accordance with the Accounting Standards (AS) 9- "Revenue Recognition".

Insurance and other claims are recognized in accounts on lodgment to the extent these are measurable with reasonable certainty of acceptance. Excess/ shortfall is adjusted in the year of receipt.

Interest is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

4. Inventories

Inventories are valued at cost, computed on a First-in-First-out (FIFO) basis, and estimated net realizable value whichever is lower. In respect of finished goods and work in process, appropriate overheads are loaded.

5. Tangible Fixed Assets

Fixed Assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any subsidy/ reimbursement/ contribution received for installation and acquisition of any fixed assets is shown as deduction in the year of receipt. Capital work- in- progress is stated at cost.

6. Depreciation

Depreciation on assets is provided on the rates arrived at, based on the useful life estimated by the management/prescribed under the Schedule II of the Companies Act, 2013.

Depreciation on fixed assets added/disposed off during the year/period is provided on pro-rata basis with reference to the date of addition/disposal.

7. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets are not capitalized and expensed off in the Statement of Profit and Loss in the year in which the expenditure is incurred.

Intangible assets are amortized on a straight line basis over the estimated useful economic life.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

8. Borrowing Cost

Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

9. Taxes on Income

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India. The tax rates and tax Laws used to compute the amounts are those that are enacted, at the reporting date.

Deferred Taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets including the unrecognized deferred tax assets, if any, at each reporting date, are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date and are adjusted for its appropriateness.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the *Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961*, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

10. Employee Benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the profit and loss account of the year in which the related service is rendered.

Defined contribution plan: Company's contribution towards provident fund is recognized in the profit and loss account.

11. Investment

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in values is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

12. Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all diluting potential equity shares.

13. Impairment of Assets

The carrying amounts of assets are reviewed at each Balance Sheet date. If there is any indication of impairment based on internal/external factors, an impairment loss is recognized wherever the carrying amount of an asset exceed its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

14. Provisions, Liabilities & Contingent Assets

a. Provisions

A provision is recognized when the company has present obligations as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and reliable estimate can be made of amount of the obligation. Provisions are not discounted at their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

b. Contingent Liabilities

A Contingent liability is a possible obligation that arises from the past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

15. Leases

Where the company is Lessee

Assets taken on lease, under which the lessor effectively retains all the risks and rewards of ownership, are classified as operating lease. Operating lease payments are recognized as expense in the statement of profit and loss account.

Assets acquired under leases where all the risks and rewards of ownership are substantially transferred to company are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of fair value or the present value of minimum lease payments and liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

Where the company is Lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and Loss as revenue from operation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

The accounting policies adopted in the preparation of Consolidated Financial Statements are consistent with those of previous year except for the change in accounting policy, if any.

2. Principal of Consolidation

The financial statements of the holding company and subsidiary companies have been consolidated on a line-by-line basis by adding together the book value of like items of assets, liabilities, income and expenses after fully eliminating intra- group balances, intra- group transactions and the unrealized profits.

The financial statements of the holding company and the subsidiary companies have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances except where otherwise stated.

3. Uses of Estimates

The preparation of the Consolidated Financial Statements in conformity with Indian GAAP requires Management to make Judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities and the disclosures relating to contingent assets and liabilities at the end of the reporting period. Although these estimates are based on the management's best knowledge of current events and actions, uncertainty about these assumptions and estimates could result in material or immaterial adjustments to the carrying amounts of assets or liabilities in future periods.

4. Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Income is accounted for on accrual basis in accordance with the Accounting Standards (AS) 9- "Revenue Recognition".

Insurance and other claims are recognized in accounts on lodgment to the extent these are measurable with reasonable certainty of acceptance. Excess/ shortfall is adjusted in the year of receipt.

Interest is recognized on a time proportion basis taking into account the amount outstanding and the applicable interest rate.

5. Inventories

Inventories are valued at cost, computed on a First-in-First-out (FIFO) basis, and estimated net realizable value whichever is lower. In respect of finished goods and work in process, appropriate overheads are loaded.

6. Tangible Fixed Assets

Fixed Assets are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs, if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any subsidy/ reimbursement/ contribution received for installation and acquisition of any fixed assets is shown as deduction in the year of receipt. Capital work- in- progress is stated at cost.

7. Depreciation

Depreciation on assets is provided on the rates arrived at, based on the useful life estimated by the management/prescribed under the Schedule II of the Companies Act, 2013.

Depreciation on fixed assets added/disposed off during the year/period is provided on pro-rata basis with reference to the date of addition/disposal.

8. Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets are not capitalized and expensed off in the Statement of Profit and Loss in the year in which the expenditure is incurred.

Intangible assets are amortized on a straight line basis over the estimated useful economic life.

The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

9. Borrowing Cost

Borrowing cost includes interest. Such costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

10. Taxes on Income

Tax expense comprises current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income Tax Act, 1961 enacted in India. The tax rates and tax Laws used to compute the amounts are those that are enacted, at the reporting date.

Deferred Taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted at the reporting date.

Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets including the unrecognized deferred tax assets, if any, at each reporting date, are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each reporting date and are adjusted for its appropriateness.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred tax assets and deferred taxes relate to the same taxable entity and the same taxation authority.

Minimum Alternate Tax (MAT) paid in a year is charged to the Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent there is convincing evidence that the company will pay normal income tax during the specified period, i.e., the period for which MAT Credit is allowed to be carried forward. In the year in which the Company recognizes MAT Credit as an asset in accordance with the *Guidance Note on Accounting for Credit Available in respect of Minimum Alternate Tax under the Income Tax Act, 1961*, the said asset is created by way of credit to the statement of Profit and Loss and shown as "MAT Credit Entitlement." The Company reviews the "MAT Credit Entitlement" asset at each reporting date and writes down the asset to the extent the company does not have convincing evidence that it will pay normal tax during the sufficient period.

11. Employee Benefits

Short-term employee benefits are recognized as an expense at the undiscounted amount in the profit and loss account of the year in which the related service is rendered.

Defined contribution plan: Company's contribution towards provident fund is recognized in the profit and loss account.

12. Investment

Investments, which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long term investments.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties.

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long term investments are carried at cost. However, provision for diminution in values is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the statement of profit and loss.

13. Earning Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all diluting potential equity shares.

14. Impairment of Assets

The carrying amounts of assets are reviewed at each Balance Sheet date. If there is any indication of impairment based on internal/external factors, an impairment loss is recognized wherever the carrying amount of an asset exceed its recoverable amount. The recoverable amount is the greater of the assets net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value at the weighted average cost of capital.

After impairment, depreciation is provided on the revised carrying amount of the assets over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation if there was no impairment.

15. Provisions, Liabilities & Contingent Assets

a. Provisions

A provision is recognized when the company has present obligations as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and reliable estimate can be made of amount of the obligation. Provisions are not discounted at their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

b. Contingent Liabilities

A Contingent liability is a possible obligation that arises from the past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is liability that cannot be recognized because it cannot be measured reliably. The company does not recognize a contingent liability but discloses its existence in the financial statements.

16. Leases

Where the company is Lessee

Assets taken on lease, under which the lessor effectively retains all the risks and rewards of ownership, are classified as operating lease. Operating lease payments are recognized as expense in the statement of profit and loss account.

Assets acquired under leases where all the risks and rewards of ownership are substantially transferred to company are classified as finance leases. Such leases are capitalized at the inception of the lease at the lower of fair value or the present value of minimum lease payments and liability is created for an equivalent amount. Each lease rental paid is allocated between the liability and interest cost so as to obtain a constant periodic rate of interest on the outstanding liability for each period.

Where the company is Lessor

Leases in which the company transfers substantially all the risks and benefits of ownership of the asset are classified as finance leases. Assets given under finance lease are recognized as a receivable at an amount equal to the net investment in the lease. After initial recognition, the company apportions lease rentals between the principal repayment and interest income so as to achieve a constant periodic rate of return on the net investment outstanding in respect of the finance lease. The interest income is recognized in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.

Leases in which the company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Assets subject to operating leases are included in fixed assets. Lease income on an operating lease is recognized in the statement of profit and Loss as revenue from operation. Costs, including depreciation, are recognized as an expense in the statement of profit and loss. Initial direct costs such as legal costs, brokerage costs, etc. are recognized immediately in the statement of profit and loss.
